

# Delivery Route Manager

Automated Wireless Environments Inc  
Newton, NJ - Sorel-Tracy QC

*Optimizing routes for your delivery fleet has never been easier*

**Delivery Route Manager is a revolution in route creation and management. Coupled with a robust Geographic Information System mapping data provider, ARM.NET is route optimization at its absolute best.**

**Configurations and Settings:** The user will be able to define settings based on their Windows user login. This will allow larger companies to define different date formats and time zones based on the individual dispatcher's requirements.

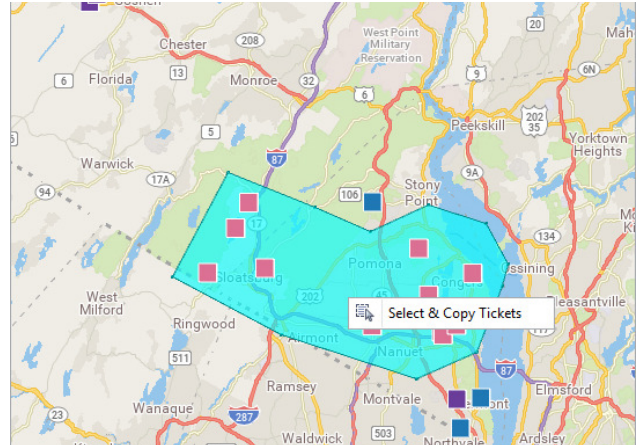

**Dynamic Load Tickets:** The dispatcher can add terminals to the driver's route and have those terminals converted into load tickets that the driver can then complete. This provides the dispatcher with more control on where the driver will load product onto his truck.

**Dynamic Delivery Filtering:** The available unassigned deliveries can easily be filtered based on any of the columns. As the deliveries in the list are added or removed, based on these filters, the map is updated with the changes real-time. This allows the dispatcher to be able to see his changes as he is typing in the filter rules.

**Truck Integration:** Truck inventory can be seen at any point by the dispatcher. This information is provided in real-time directly from the AWD system on the truck via the Wireless Delivery Dispatch tool.

**Truck Specific Routing:** The Route Manager can take into account commercial vehicle and hazardous material road restrictions when optimizing a route.

**Notification Integration:** Route Manager integrates with our stand-alone notification system. Notifications allow AVL to send e-mails, SMS text messages or display in-application popups to a user or customer.

The screenshot displays the software interface with a map on the right showing a route in red. On the left, there is a 'Ticket' list and a 'Routing Completed' dialog box. Below the map, a 'Ticket Status' legend is visible, and at the bottom, a detailed route breakdown table is shown.

Direction	Time	Distance
166 US-9 W, New Windsor, NY 12553	07:00:00 AM	
Go north on US-9 W		
Drive less than 0.1 miles	0:00	0.001
Drive 1.767 miles (~2 min)	0:02	1.768
Take ramp to NY-218 South - Academy Avenue		
Drive 0.321 miles on Ramp (~ 4 blocks)	0:03	2.089
Drive 7.133 miles (~11 min)	0:14	9.222
Take ramp and then merge left on US-9 W South		
Drive 0.144 miles on Ramp (~ 3 blocks)	0:14	9.366
Drive 0.930 miles	0:15	10.296
Drive 4.430 miles (~6 min)	0:21	14.726
At circle, take second exit on US-9 W South		
Drive less than 0.1 miles	0:21	14.776
Drive 11.331 miles (~15 min)	0:37	26.107
Proceed ahead as name changes to US-9 West South - Conger Avenue		
Drive 0.956 miles	0:38	27.063
Keep right on Haverstraw Road - Route 29 West		
Drive 0.802 miles (~2 min)	0:39	27.865
Stay on Haverstraw Road - Route 29 West as it turns left		
Drive 1.437 miles (~3 min)	0:42	29.302
Turn right on Zukor Road
